

The Okefenokee Swamp

Some books about relativity:

- Taylor & Wheeler “*Spacetime Physics*” = TW1
(simple presentation, but deep insights)
- Taylor & Wheeler “*Introduction to Black Holes*” = TW2
(CO-level math, deep insights)
- Weinberg “*Gravitation & Cosmology*”
(hairy-looking math, but examples of solving field eqn)
- Hartle “*Gravity, An Introduction to Einstein’s General Relativity*”
(textbook for AST 860)
