

I have received the following message from the Spartan Bookstore regarding problems you may have had with the Access Code packaged with the Rex&Wolfson textbook. Instructions for fixing the problem are explained:

"Dr Bromberg I have just checked our stock of Hobson and Hewitt packages. I found three Rex textbooks with HewittMastering Physics. I'm upset when things don't go smoothly as well. This is strictly the problem of the Spartan Bookstore and should not reflect on Pearson publishing. Students that have the incorrect access code should bring their book, the incorrect software, and their receipt to the textbook counter and we will make the exchange."

Jerry Parr Textbook Manager

Iclickers

If you haven't registered your I-clicker (when purchasing or sharing an i-clicker) go to www.iclicker.com and register, use xxxxxx@msu.edu (only the xxxxxx part) of your MSU email as your ID. If you previously used your Student ID number (e.g., Ayyyyyyyy) I can deal with that as well.

Due date of Set 0 has been reset to Sunday January 12 @ 11:59 pm.

C. Bromberg, Prof. of Physics
