

Schroff[®]

SPECIFIER'S GUIDE

SUBRACKS • CASES • PANELS • PLUG-IN UNITS • RETAINERS

Pentair Technical Product's Schroff® brand has been a world-leader in the electronics packaging industry for over four decades. Schroff supplies subracks and accessories, instrument cases, 19-in. cabinets, backplanes, integrated systems and enclosure hardware, complete packaging systems for MicroTCA, Advanced TCA, CompactPCI, PXI, VME, VME64x, VPX, VXS and customer-specific enclosure systems.

Product Description

Cases—form and functions for a wide range of industries

Schroff instrument and system cases provide fully functional, stylish enclosures offering high-quality protections for electronic equipment. Our cases can be configured to meet most applications using our standard catalog components whether your application is for EMC shielding, ruggedization or highly customized. Whether it is a portable, desk-mount or rack-mount application, or whether it is a CompactPCI, VME or proprietary application, the Schroff case family has an off-the-shelf solution.

Systems—from a single source

Our comprehensive and highly developed product range offers you mechanical, electronic and thermal components with an extensive choice of dimensions and performance specifications. Simply select a complete, ready system or configure your system from our standard components to your exact requirements. With all resources under one roof, we ensure that backplane, power supply, cooling and mechanics form an optimized system.

Subracks—a modular toolbox

Schroff subracks, with their modular construction, offer you many profitable advantages, both technical and economic. Their standard components are offered with a vast range of supporting accessories for light-duty or heavy-duty applications. Whether for CompactPCI, VME64x or AdvancedTCA specifications, HF-shielded or rugged, the Schroff subrack system allows versatile combinations, letting you implement a range of versions in varying height, width and depth, simply, cost-effectively and with no design outlay.

Front panels—products plus services for any requirement

Offering a broad range of front panel products designed to industry-leading specifications, Schroff meets your application needs. With advanced customization services for all front panel product lines, and the Front Panel Express service, you can rely on the Schroff brand to solve your design requirements. Moreover, high-speed milling machines and stamping presses support low to very high volume front panel projects quickly.

Retainers—design flexibility for any requirement

Choose different wedge segments, lengths, individual wedge dimensions; relocate or add mounting holes, or even different hardware, materials and finishing. Calmark and Birtcher brand retainers offer an extremely broad range of configurations allowing you to meet your application needs.

Front Panels, Plug-in Units

Overview

- **Solutions for every application**

Schroff front panels meet all standards required for VME, CPCI, ATCA and mTCA applications. Ordering parts from Schroff will ensure that you have components which meet the highest industry standards.

- **Quality products modified to meet your needs**

Quality design and manufacturing processes back up our world class modification services—get the right product exactly how you need it.

- **Quick turn around for modifications**

Use our five business day Front Panel Express service to get custom front panels to meet your particular requirements. Please find more information at www.schroff.us/fpx

- **EMI shielded front panels**

Ensuring that all front panels have good EMI shielding will ensure that your overall system is properly shielded.

- **Peace of mind**

Ordering Front Panels from Schroff will ensure that you have one facility responsible for machining and screening your parts.

- **Industry leadership**

Active member in global standardization committees like IEC, IEEE, VITA, PICMG

Plug-in Units

- Plug-in units available as kits or individual components
- Meets IEC 60297-3-101/IEEE 1101.1/11, IEC 60297-3-102/IEEE 1011.10 and IEC 60297-3-103 standards
- Front panels and front handles in different designs:
 - Heavy-load XL insertion/extractor handles, extraction force up to 1500 N
 - Cantilever extraction handle
 - Extraction handles for Multibus® II
 - Shielded insertion/extractor handles (1101.1)
 - Front panel kits with AdvancedTCA-IEA handles
- Nine different handles for plug-in units offering flexibility on application level
- EMC shielding available as application requires

Front Panels

- We offer the widest range of front panels to fit in subracks and cases
- Meets IEC 60297-3-101 / IEEE 1101.1/10 standards
- Extensive standard range with various aluminum finishes
- Front Panel Express: Fast delivery for customized versions (ready for dispatch within 5 to 10 days)
- EMC shielding available as application requires

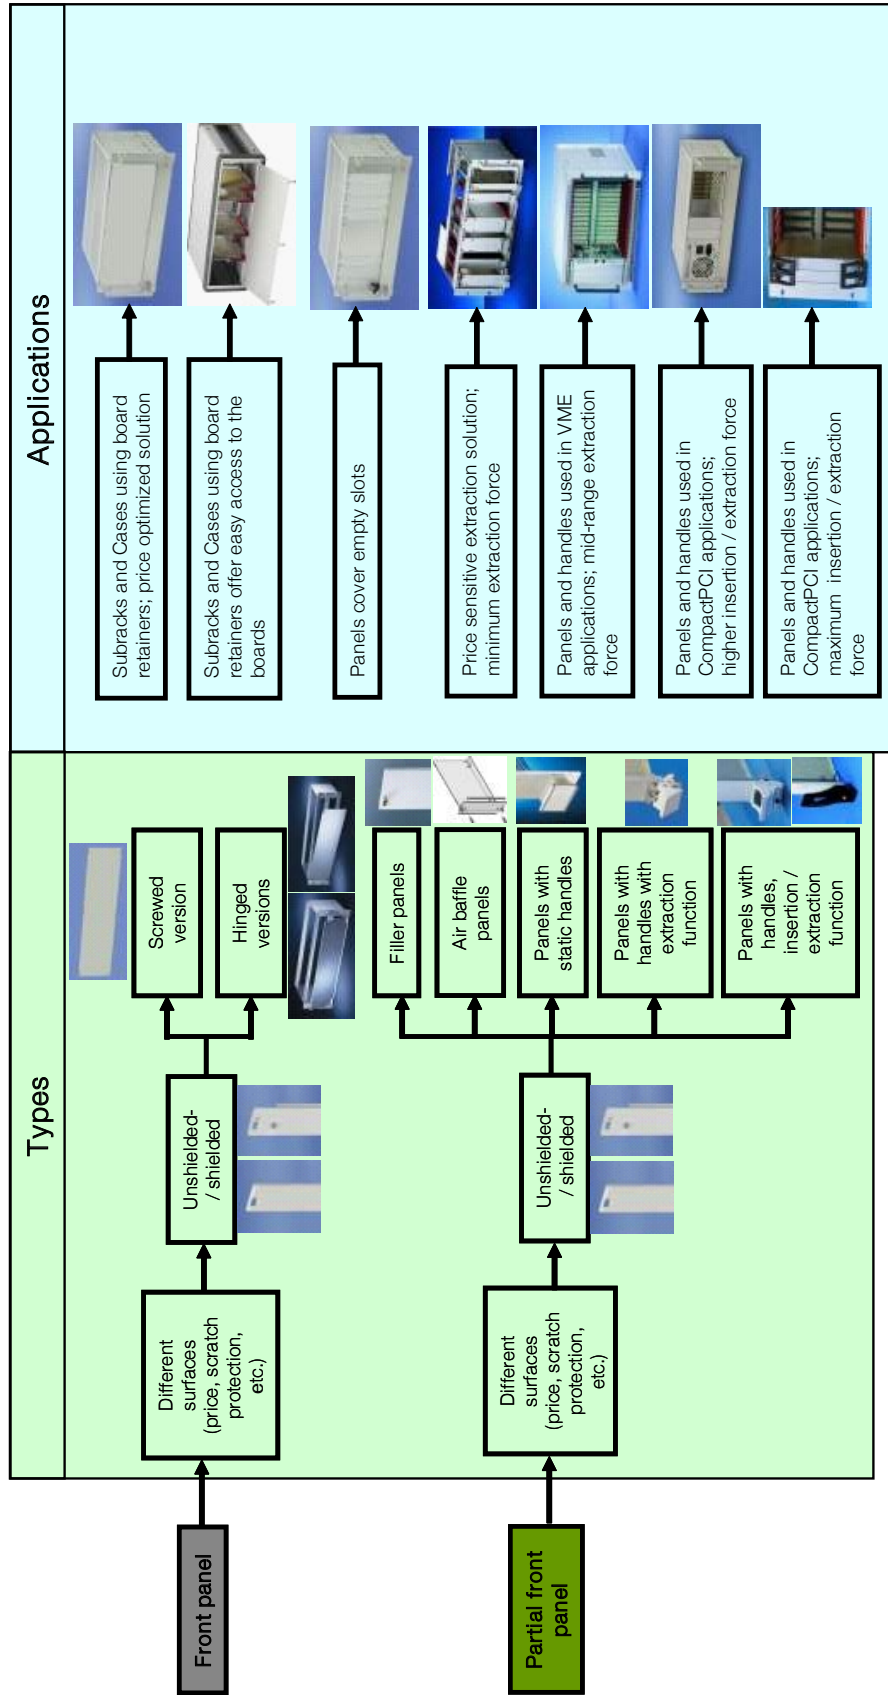

AdvancedMC-Modules AMC.0 R2.0

- AdvancedMC Modules: physical components
- Front panels with two locking mechanisms suitable for AdvancedMC carriers and MicroTCA systems
- Front panels in stainless steel or aluminium profile
- AdvancedMC Module Dimensions: Two heights (single and double); three widths (compact, mid-size and full-size)
- Ruggedized AdvancedMC Modules for MicroTCA.1 applications
- MicroTCA filler modules with adjustable air throughput
- Front panel sets with AdvancedTCA handles and AdvancedMC modules that support Telecom technologies

Front Panels

Front Panel Selection Guide

Front Panels

Front Panel Express—when customized panels are required - FAST!

Schroff Front Panel Express service offers fast prototypes-to-production cycle time. With Front Panel Express, you can get 5 to 50 front panels modified with custom cut-outs, handles and silk-screen in as few as 5 working days. Front Panel Express is available on several Schroff brand modified front panels. Solve your design problems and get your business up and running faster with Schroff brand products.

Advantages and Features:

- **Fast prototypes to production**—shipped in as few as 5 days
- **Broad** range of rugged front panel products available
- **Customization services** include cut-outs, screen printing, assembly and more
- **Local and global** design and product support
- **Design and engineering technical assistance** (Pro-E, SDRC, AUTOCAD and SolidWorks)

Versatile Solutions from the Authority in Front Panel Technology

For more than 60 years, companies have relied on Schroff for product and service solutions for enclosing, protecting and cooling electrical and electronic systems. The Schroff brand offers world-leading electronics packaging components and systems, including versatile and robust front line products. To contact your local representative or learn more, visit schroff.us/fpx/

Front Panels

Front Panels, unshielded

- Front panels, aluminum, 2.5 mm
- Versions:
 - Aluminum, anodized
 - Aluminum, anodized, cut edges plain
 - Aluminum, front anodized, rear conductive coating

Cantilever Extraction Handles

Type 2 plastic static handle	Type 2 plastic extraction handle for notched front panel	Type 2 plastic extraction handle, standard C style	Extraction handles for Multibus® II standard	Plastic extraction handles - short lever	Plastic extraction handles - long lever

Available as spare parts or in kit form.

Plug-In Units

Plug-In Unit Kits for AdvancedTCA-IEA with die-cast end piece handles

(Board not included) (AdvancedTCA spring-loaded IEA handle)

- Hot-swap handles (spring-loaded)
- Front panels: aluminum extrusion or stainless steel
- Die-cast end piece (top and bottom) to increase stability of front panel
- EMC sealing (textile)

Standard Product

Height (U)	Width (HP)	Description	Part no.
8	6	Stainless steel, with AdvancedTCA-IEA handle (plunger type)	20818-160
8	6	Stainless steel, with AdvancedTCA-IEA handle (lever type)	20818-161

AdvancedMC-Modules with Pull-Handle Mechanism for PIGMG AMC.0 R2.0 applications

(Photo shows steel front panel with complete module)

- Shielded
- Insertion/extraction mechanism to AdvancedMC standard; pull handle to extract sub-assembly
- For conventional, cutaway and hybrid carriers
- Designed for microswitch activation (hot-swap); interlocking of modules without screws
- Inclusive of light pipe
- Stainless steel front panel is available on request
- Aluminium profile front panel for foil labelling

Subracks

Overview

Subrack Features

- **Subrack products for every application**

19-in. and 23-in. rack-mount equipment, embedded electronics, test equipment, security and defense industry solutions—Schroff provides the widest range of subrack products in the industry.

- **Quality products modified to meet your needs**

Quality design and manufacturing processes back up our world class modification services—get the right product exactly how you need it.

- **Unmatched electromagnetic shielding performance**
The strongest chassis level electromagnetic shielding available on the market—as a standard upgrade.
- **Rugged and robust components**
Designed to meet industry standards for shock and vibration applications.
- **Integration beyond the metal**
Schroff is the expert at integrating to any level you require. Get electronics, wiring, backplanes, power and cooling all from one supplier.
- **Industry leadership**
Active member in global standardization committees like IEC, IEEE, VITA, PICMG.

europacPRO

- 19-in. subracks with high design flexibility
- Can be configured to meet a full range of applications and customer requirements from the most basic configuration to Military Spec, Rugged
- Meets IEC 60297-3-103 and IEEE 1101.10/11 standards
- Available in kit or complete assembly

inpac

- 19-in. chassis with high mechanical stability
- Flexible construction for standard board formats or individual solutions
- Can be used as a desktop enclosure

multipacPRO

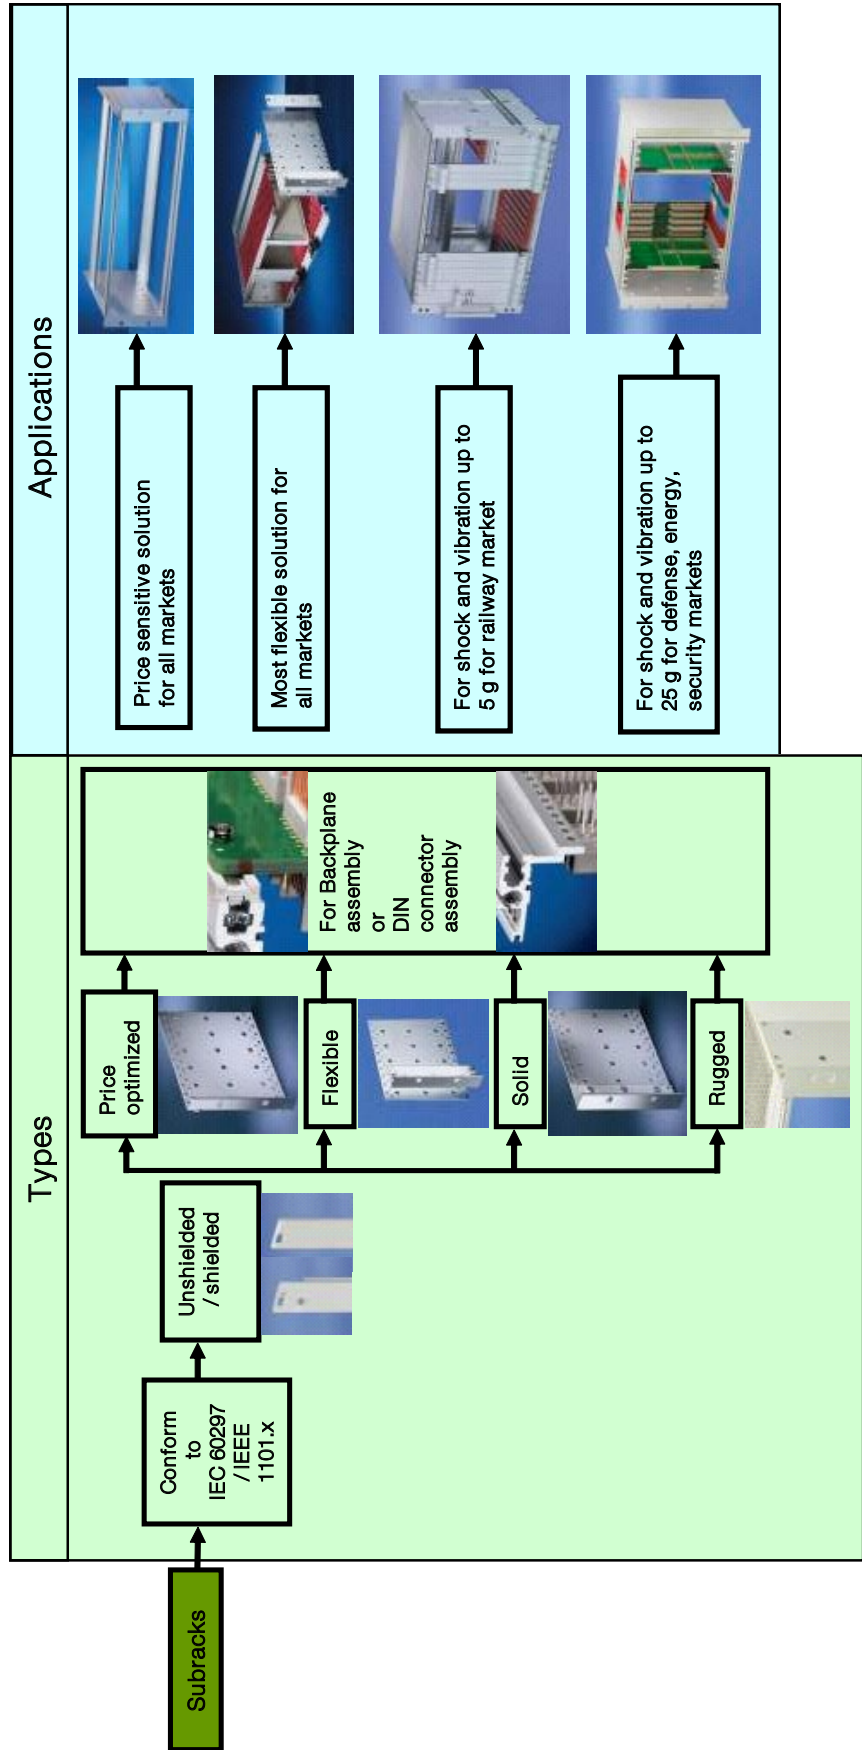

- 19-in. chassis for non-standard components and horizontal board applications
- Versions in steel or aluminum
- Available in kit or complete assembly

Subracks

Subrack Selection Guide

Some limitations apply; please see www.schroff.us/fpx/ for more details.

Subracks

europacPRO—Kits, unshielded, for backplane mounting

- 19-in. subracks with high design flexibility
- Rear horizontal rail for backplane mounting with insulation strip

(D=total depth, D1=insertion depth, D2=board depth)

(Rear horizontal rail for backplane mounting with insulation strip)

Accessories

Front handle 3 U, clear anodized, 1 piece	10501-005
Front handle 6 U, clear anodized, 1 piece	10501-008
Guide rails , 160 mm deep, PBT, UL 94 V-0, red, groove width 2 mm, Qty. 10 pieces	24560-351
Guide rail , 220 mm deep, PBT, UL 94 V-0, red, groove width 2 mm, Qty. 10 pieces	24560-353
Guide rail , 280 mm deep, PBT, UL 94 V-0, red, groove width 2 mm, Qty. 10 pieces	24560-379
ESD clip for guide rails Qty. 50 pieces	24560-255
19-in. assembly kit (screw, washer, nut) (8 × screws, 8 × plastic washers, 8 × cage nuts)	21100-435

Kit includes:

Item	Qty		Description
	3 U	6 U	
1	2	2	19-in. support bracket for EMC gasket (textile)
2	2	2	Rear corner profile for EMC gasket (textile)
3	2	2	Side panel
4	2	2	Front horizontal rail
4a	2	2	Rear horizontal rail
4b	2	2	Rear horizontal rail for backplane mounting with insulation strip
4c	-	1	Center horizontal rail
5	6	8	Threaded insert (pre-fitted)
6	2	4	Insulation strip, fixed
7	2	2	EMC cover plate
8	1	1	EMC gasketing material (pre-fitted)
9	1	1	Rear panel
10	1	1	Assembly kit
11	2	2	Perforated strip (pre-mounted)
12	1	1	User manual

Part number in bold face is a stocked item.

Sub racks

europacPRO—Kits, shielded, for CompactPCI with backplane mounting for rear I/O

- 19-in. flexible subracks for CompactPCI plug-in units with high insertion and withdrawal forces, meets IEEE 1101.10/11 and IEC 60297-3-103
- For rear I/O boards (depth 80 mm)
- Horizontal rail at rear for backplane mounting with insulation strip
- Shielding typically 40 dB at 1 GHz, 30 dB at 2 GHz (to VG 95373, part 15 or IEC 61587, part 3), provided the front is closed with shielded front panels

Standard Product

Height (U)	Width (HP)	Depth D (mm)	Depth D1 (mm)	Depth D2 (mm)	Depth D3 (mm)	Part no.
3	84	275	175	160	80	24563-157
6	84	275	175	160	80	24563-457

(D=overall depth, D1=insertion depth, D2=board depth, D3=board depth rear I/O))

(Rear horizontal rail for backplane mounting with insulation strip)

Accessories

Front handle 3 U, clear anodized, 1 piece	10501-005
Front handle U, clear anodized, 1 piece	10501-008
Guide rails with coding, red 70 mm deep, Qty. 10 pieces	24560-355
Guide rails with coding, gray 70 mm deep, Qty. 10 pieces	24560-360
Guide rails with coding, red 160 mm deep, PBT, UL 94 V-0, groove width 2 mm, Qty. 10 pieces	24560-356
Guide rails with coding, gray 160 mm deep, PBT, UL 94 V-0, groove width 2 mm, Qty. 10 pieces	24560-358
Guide rails with coding, green, offset 160 mm deep, PBT, UL 94 V-0, groove width 2 mm, Qty. 10 pieces	24560-359
ESD clip for guide rails Qty. 50 pieces	24560-255
ESD clip for alignment pin of CPCI/VME64x handle Qty. 50 pieces	24560-256
Torx Panhead screw 2.5 × 9.3, zinc-plated, Qty. 100 pieces	24560-141
Coding pin PC, UL 94 V-0, RAL 7035, Qty. 100 pieces	20817-501
19-in. assembly kit (screw, washer, nut) (8 × screws, 8 × plastic washers, 8 × cage nuts)	21100-435

Kit includes:

Item	Qty.	3 U	6 U	Description
1	2	2		19-in. support bracket for EMC gasket (textile)
2	2	2		Rear corner profile for EMC gasket (textile)
3	2	2		Side panel
4	1	-		Front horizontal rail
4a	1	2		Front horizontal rail IEEE
4b	2	2		Rear horizontal rail
4c	2	2		Rear horizontal rail with insulation strip for backplane mounting
4d	-	1		Centre horizontal rail
5	6	8		Threaded insert (pre-fitted)
6	2	4		Insulation strip, fixed
7	2	2		EMC cover plate
8	1	1		EMC gasketing material (pre-fitted)
9	1	1		Assembly kit
10	2	2		Perforated strip (pre-mounted)
11	2	2		Horizontal rail
12	1	1		User manual

Part number in bold face is a stocked item.

Subracks

Guide Rails for plug-in units and modules

Assemblies can be clipped into aluminum extruded horizontal rails and 1.5 mm thick plates.

Storage temperature from -40 C to 130 C.

Standard Product

Board lengths (mm)	Groove width (mm)	Color	1 piece (Qty. 50) ¹⁾	Qty. 10 pieces

Subracks

multipacPRO—19-in. complete steel chassis, plain top cover and base plate

(h - clear height [overall]) (H - 3.0 mm)
(b = clear installation width)

- Complete chassis, St (AlZn coated) with Al extrusion front panel
- Detachable rear panel for easy machining
- EMC shielding of approximately 30 dB(A) at 1 GHz (without additional shielding material)
- Meets IEC 60297-3-100, 60297-3-101 and 60297-3-105 standards
- In the 1 U version, 19-in. and ATX power supplies can be assembled up to a clearance of 40 mm

Cases

Overview

Case Features

- **Electronics case products for every application**
Test and measurement equipment, medical equipment, portable electronics and rugged protection for field equipment
- **Modification to meet your specific needs**
Panels, I/O cutouts, equipment mounting plates, custom colors and screen printing
- **Highly effective electromagnetic shielding**
The strongest electromagnetic interference shielding available on standard case products

- **Robust and aesthetic**
Made from strong aluminum and steel materials, our cases are also attractive with a modern aesthetic look
- **Perfect combination of features**
Form and function for measurement, instrumentation and control technology in a wide range of industries
- **Always in front**
Active member in global standardization committees like IEC, IEEE, VITA, PICMG

comptec

- High stability
- Mini-cabinets
- Desktop enclosures
- Mounts 19-in. equipment
- Lab and demo applications
- Steel or aluminum case

compacPRO

- For 19-in. components or individual electrical equipment
- Many standard sizes
- Rugged build
- Attractive
- Desktop case
- Aluminum case

ratiopacPRO

- Universal cases with 19-in. compatible dimensions, e.g., for CompactPCI and VME64x applications
- Feature rich
- Easy to modify
- Best EMC solution
- Desktop or rack mount
- Aluminum case

Cases

Cases Selection Guide

Some limitations apply; please see www.schroff.us/fpx/ for more details.

Cases

comptec—19-in. cases 3, 4, 6, 9 U

(Height 3 and 4 U)

(Height 6 and 9 U)

Front View

(h = case foot height, HE = U, internal usable height)

Front View

(h = case foot height, HE = U, internal usable height)

Side View

(Usable width $b = B - 69$ mm, h = height of case foot)

Side View

(Usable depth $d = D - 24$ mm)

- Accepts 19-in. rack-mount units
- Desktop enclosures (pre-assembled)
- Steel top covers, base plates and rear panels
- Al die-cast front and rear frames
- Ventilation slots in base plate, air vents in rear panel

Includes (kit, item 1 and 2 assembled)

Item	Qty.	Description
1	2	Side panel, Al extrusion, powder-coated, RAL 7016
2	2	Frame, Al die-cast, powder-coated, RAL 7016
3	1	Cover plate, Al, 1.5 mm, powder-coated, RAL 9006, with grounding connection
4	1	Base plate with 4 rows of ventilation slots, Al, 1.5 mm, powder-coated RAL 9006, with grounding connection
5	4	Case foot with anti-slip protection, PC, black
6	8	Cover plate fixing adapter, prefitted
7	1	Assembly kit, additionally allows mounting of a full-width front panel, two cover brackets or a rear panel

	Front panel Al, 3 mm, height 3 U, width 84 HP, 1 piece	30823-260
	Front panel Al, 3 mm, height 4 U, width 42 HP, 1 piece	30823-269
	Front panel Al, 3 mm, height 4 U, width 63 HP, 1 piece	30823-227
	Front panel Al, 3 mm, height 4 U, width 84 HP, 1 piece	30823-272
	Front panel Al, 3 mm, height 6 U, width 63 HP, 1 piece	30823-230
Front panel Al, 3 mm, height 6 U, width 84 HP, 1 piece	30823-284	
	Rear panel Al, 2 mm, height 2 U, width 42 HP, 1 piece	30823-015
	Rear panel Al, 2.5 mm, height 2 U, width 84 HP, 1 piece	30823-512
	Rear panel Al, 2 mm, height 3 U, width 28 HP, 1 piece	30823-021
	Rear panel Al, 2 mm, height 3 U, width 42 HP, 1 piece	30823-024
	Rear panel Al, 2 mm, height 3 U, width 63 HP, 1 piece	30823-027
	Rear panel Al, 2.5 mm, height 3 U, width 84 HP, 1 piece	30823-515
	Rear panel Al, 2 mm, height 4 U, width 42 HP, 1 piece	30823-033
	Rear panel Al, 2 mm, height 4 U, width 63 HP, 1 piece	30823-036
	Rear panel Al, 2.5 mm, height 4 U, width 84 HP, 1 piece	30823-518
	Rear panel Al, 2 mm, height 6 U, width 63 HP, 1 piece	30823-045
Rear panel Al, 2.5 mm, height 6 U, width 84 HP, 1 piece	30823-521	
	Tip-up carrying handle for case height 2 U, width 42 HP, 1 piece	24575-038
	Tip-up carrying handle for case height 2 U, width 84 HP, 1 piece	24575-078
	Tip-up carrying handle for case height 3, 4 U, width 28 HP, 1 piece	24575-118
	Tip-up carrying handle for case height 3, 4 U, width 42 HP, 1 piece	24575-138
	Tip-up carrying handle for case height 3, 4 U, width 63 HP, 1 piece	24575-158
	Tip-up carrying handle for case height 3, 4 U, width 84 HP, 1 piece	24575-178
	Tip-up foot silver, similar to RAL 9006, 4 pieces	20603-001
	Tip-up foot anthracite similar to RAL 7016, 4 pieces	20603-002
	Filler angle Al extrusion, anodized, 2 U, 1 piece	24575-019
	Filler angle Al extrusion, anodized, 3 U, 1 piece	24575-119
	Filler angle Al extrusion, anodized, 4 U, 1 piece	24575-219
	Filler angle Al extrusion, anodized, 5 U, 1 piece	24575-419
	Front horizontal rail 42 HP, 1 piece (Qty. 10)	34560-242
	Rear horizontal rail 42 HP, 1 piece (Qty. 10)	34560-542
	Front horizontal rail 84 HP, 1 piece (Qty. 10)	34560-284
	Rear horizontal rail 84 HP, 1 piece (Qty. 10)	34560-584
	Threaded strip , 28 HP, 146.82 mm, 1 piece	34561-328
	Threaded strip , 42 HP, 217.94 mm, 1 piece	34561-342
	Threaded strip , 63 HP, 324.62 mm, 1 piece	34561-363
	Threaded strip , 84 HP, 431.3 mm, 1 piece	34561-384
	Insulation strip 28 HP, PBT UL 94V-0, gray, Qty. 10 pieces	24560-828
	Insulation strip 42 HP, PBT UL 94V-0, gray, Qty. 10 pieces	24560-842
	Insulation strip 63 HP, PBT UL 94V-0, gray, Qty. 10 pieces	24560-863
	Insulation strip 84 HP, PBT UL 94V-0, gray, Qty. 10 pieces	24560-884

ratiopacPRO—Cases

Cases

- Cases for individual expansion or to house 19-in. standard components (e.g. with mounting plate)
- Unshielded (EMC shielding retrofittable)
- Symmetrical design, identical front and rear side
- Available in three versions:
 - with cover strips
 - with front handles
 - with 19-in. mounting bracket
- For board depth 160 mm, 220 mm, 280 mm and 340 mm

Includes (Kit)

Item	Qty.	Description
1	2	Side panel, Al, 2 mm, chromated
2	2	Side plate, Al, 1 mm, visible surface powder-coated, RAL 9006
3	2	Rear trim, Zn die-cast, powder-coated, RAL 7016
3a	2	Cover strip, Zn die-cast, powder-coated, RAL 7016
3b	2	Front handle, Al die-cast, powder-coated, RAL 7016
3c	2	19-in. mounting angle, Al die-cast, powder-coated, RAL 7016
4	4	Horizontal rail, Al, visible surface powder-coated, RAL 7016
11	2	Top cover and base plate, Al, 1 mm, internal surface conductive, visible surface powder-coated, RAL 9006, with grounding connections, base plate with honeycomb grid ventilation
12	4	Case foot with anti-slip protection, UL 94V-0, PC black
13	1	Assembly kit

3a, 3b or 3c depending on selection

Retainers

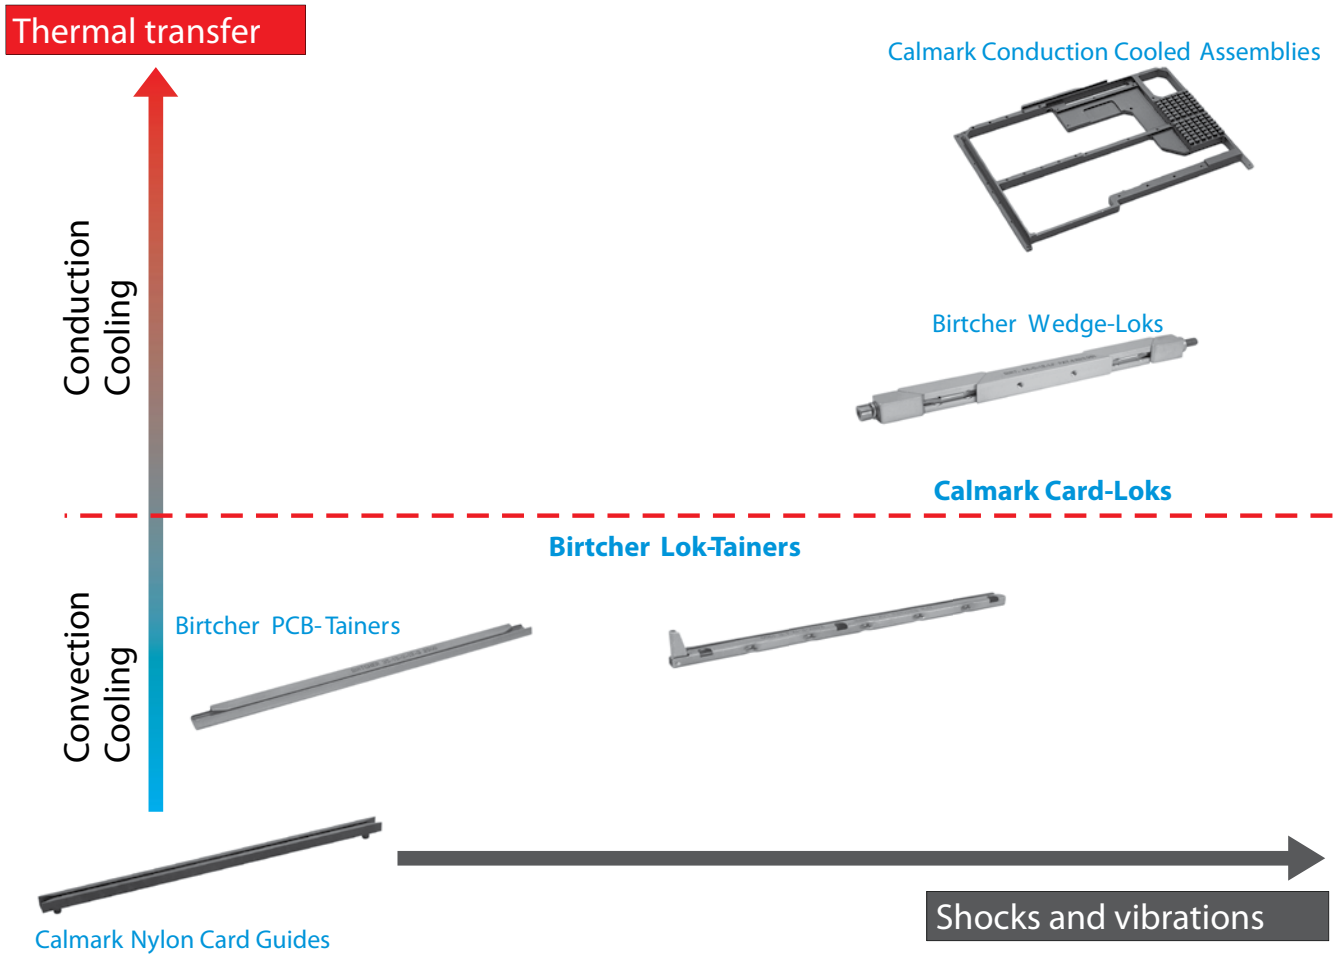

Calmark™ and Birtcher™

Calmark and Birtcher design and manufacture rugged printed circuit board retainers, conduction cooled frame assemblies and extractors for use in non-benign and rugged environments.

Product Overview

- Card-Lok™ and Wedge-Lok™ retainers offer the highest locking force available to hold the PC board firmly in place, providing high resistance to shock and vibration while producing maximum thermal transfer for cold wall applications.
- Lok-Tainer™ retainers are typically mounted to a sheet metal chassis, achieving high resistance to shock and vibration and good thermal transfer.

- PCB-Tainer™ and Calmark Retainers feature a spring-action card retention design. They are designed primarily for use in sheet metal applications, provide protection against shock and vibration, and offer excellent grounding characteristics.
- Calmark and Birtcher Extractors are used for safe and easy extraction of printed circuit boards with high-density connectors.
- Conduction Cooled Assemblies provide a direct thermal path for the heat generated from the processors to the cold wall. Conduction Cooled Assemblies are also used to make the module stiffer for improved resistance to shock and vibrations.

CALMARK™ Products

Card-Lok Features

- Large variety of profiles (width x height) and material finishes available
- Visual indication of locking status
- Self-ejecting Card-Lok
- Custom designs available
 - 7 and 9 or more wedge segments
 - Lengths outside of standard catalog offering

**For more information,
please go to www.calmark.com.**

Series 260—Card-Loks

- Profile: .250 x .270 in.
- Five-segment design for increased clamping force
- Aluminum shaft for increased thermal transfer and lighter weight.

Series LE260—Card-Loks

- Profile: .250 x .270 in.
- Tool free, lever action locking
- Safe and easy module insertion and extraction lever
- Preset and adjustable clamping force
- Five-segment design for increased clamping force
- Aluminum shaft for increased thermal transfer and lighter weight

Series 223 and 224—Torque Limiting Card-Loks

- Profiles: .225 x .260 in. and .210 x .275 in.
- Safe and reliable clamping force without the need for a torque wrench
- Prevents damage to the board or the retainer due to over-tightening
- Enhances "Two-Level Maintenance" capability for your modul

Series 120 Nylon

- Easy and secure snap-in design
- Wide lead-in for easy card entry
- Conductive material available

CALMARK™ Products

Extractors / Inserts

- Lever action for safe and easy extraction and insertion of printed circuit board from connectors
- Available in aluminum and nylon
- Some series offer a positive locking feature
- Up to 8:1 lever ratio

Coding Keys / Inserts

- Method for keying systems with no front panels
- Complies with VITA 1.6 standard
- Six coding configurations per set

Conduction Cooled Assemblies

A Conduction Cooled Assembly (CCA) consists of:

- Conduction cooled frame and backing plate
 - To provide a direct thermal path for the heat generated from the processors to the cold wall
 - Makes the module stiffer for improved resistance to shock and vibrations
- Card-Loks or Wedge-Loks provide high clamping force with even pressure distribution for low thermal resistance out to the cold wall
- Extractors provide ample force to disengage board connectors

Our offering:

- Available in 3 U or 6 U (width of frame)
- Various standards:
 - VME/VME64x, compactPCI (IEEE 1101.2, VITA 30.1)
 - VPX (VITA 48.2)
 - μ TCA (PICMG MTCA.3)
 - PMC (VITA 20)
 - Proprietary
- Customization of the frame to match the board and envelope hot components; design types:
 - Basic frames
 - Customized frames
 - Engineered frames
 - Clamshells
- Available in black anodize, hard black anodize, chem film, or electroless nickel plating for excellent corrosion resistance

Engineering services:

- Thermal analysis of the module to determine the hotspots and design the conduction cooled frame appropriately
- 3D CAD models available
- Collaborative engineering

Birtcher™ Products

Wedge-Lok Features

- Large variety of profiles (width x height) and material finishes available
- Custom designs available
 - 7 and 9 or more wedge segments
 - Lengths outside of standard catalog offering

For more information,
please go to www.birtcherproducts.com.

Series 48-5—Wedge-Loks

- Profile: .225 x .260 in.
- Screw-actuated wedge action design locks board module assembly in place to provide maximum resistance to shock and vibration
- Wedge action design provides maximum contact between thermal paths on Board Module Assembly and the heat sinking surface

Series 48SL—Wedge-Loks

- Profile: .225 x .260 in.
- Screw-actuated wedge action design locks board module assembly in place to provide maximum resistance to shock and vibration
- Five-segment design for increased clamping force
- Alignment springs return wedge bodies to relaxed position when unclamping and keep wedges in line for tight tolerance situations

Series 120 Nylon

- Easy and secure snap-in design
- Wide lead-in for easy card entry
- Conductive material available

Extractors / Inserts

- Lever action for safe and easy extraction and insertion of printed circuit board from connectors
- Available in aluminum and nylon
- Some series offer a positive locking feature
- Up to 8:1 lever ratio

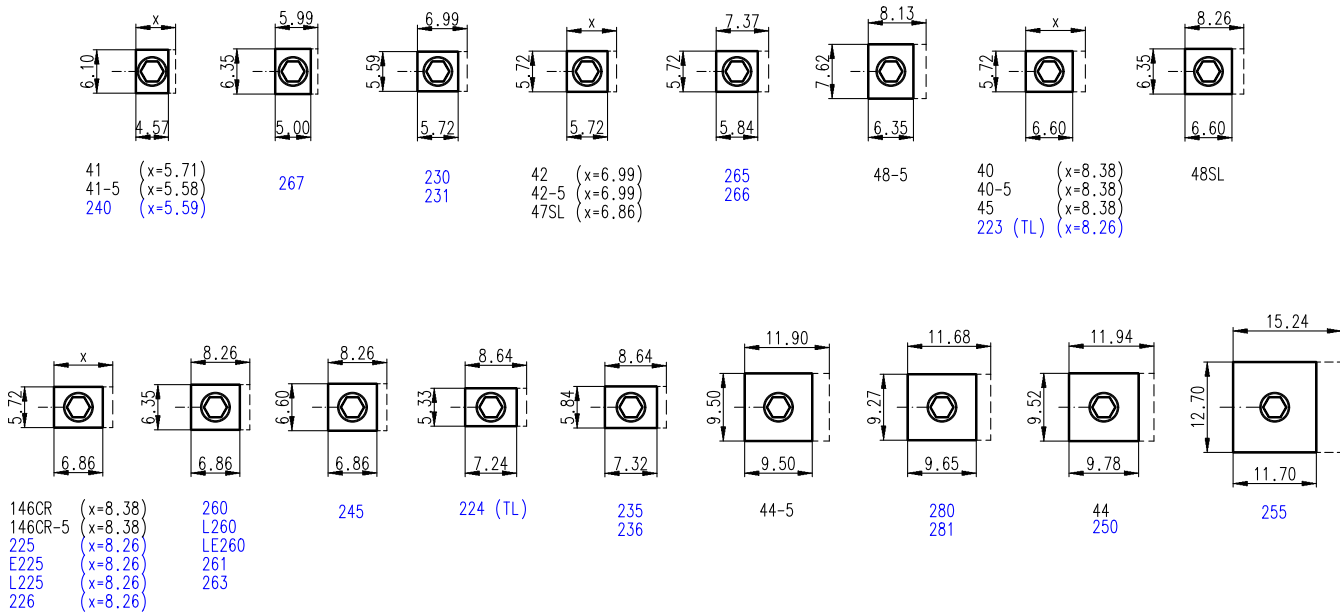

Series 340 Wedge-Tainer

- For military and commercial applications where harsh environments exist
- For use where retainers are not mounted to PC modules (i.e., SEM-A, B, D, D and E mounted)

Birtcher™ Products

Wedge-Lok / Card-Lok Selection Guide

Birtcher Standard Products

Wedge-Loks

Series	Height x Width (in.)	Number of segments* (in)	Length (in.)	Finish	Mounting method	Part number
42 series	.225 x .260	3	3.00	Chemical Film, Clear	2-56 UNC-2B tapped hole	40-6-S
	.225 x .260	3	4.00	Chemical Film, Clear	2-56 UNC-2B tapped hole	40-8-S
	.225 x .260	3	5.00	Chemical Film, Clear	2-56 UNC-2B tapped hole	40-10-S
45 series	.225 x .260	5	3.00	Chemical Film, Clear	2-56 UNC-2B tapped hole	40-5-6
	.225 x .260	5	4.00	Chemical Film, Clear	2-56 UNC-2B tapped hole	40-5-8
	.225 x .260	5	5.00	Chemical Film, Clear	2-56 UNC-2B tapped hole	40-5-10

* The 5 segment version provides a higher clamping force and higher thermal transfer

Lok-Tainers

Series	Actuation type	Material	Length (in.)	Finish	PC board thickness (in.)	Part number

PCB-Tainers

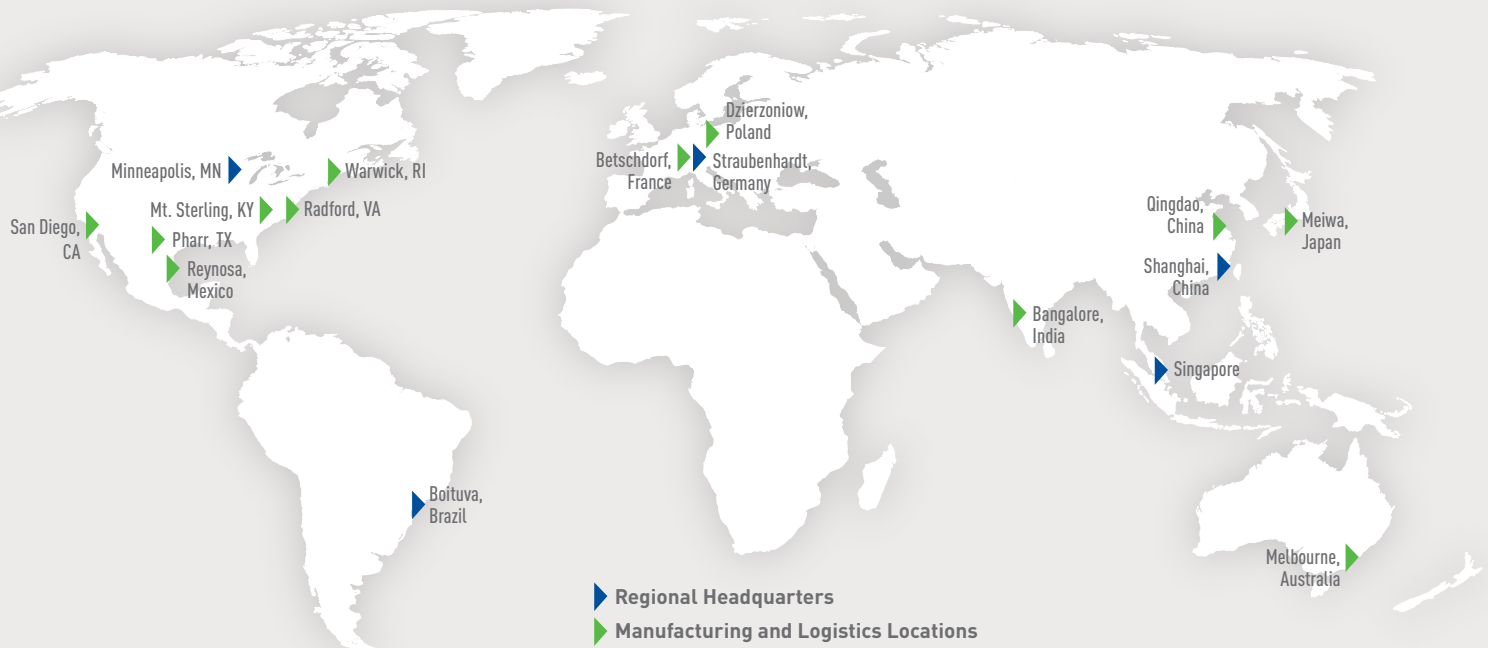

Series	Height (in.)	Material	Length (in.)	Finish	PC board thickness (in.)	Part number
35-1 series	180	Beryllium copper	4.00	Cadmium plating	.063	35-1B-2-8-3
	180	Beryllium copper	6.00	Cadmium plating	.063	35-1B-2-12-3
35-2 series	130	Beryllium copper	4.00	Cadmium plating	.063	35-2B-2-8-3
	130	Beryllium copper	6.00	Cadmium plating	.063	35-2B-2-12-3
35-7 series	125	Beryllium copper	4.00	Cadmium plating	.063	35-7B-2-8-3
	125	Beryllium copper	6.00	Cadmium plating	.063	35-7B-2-12-3

Extractors

Series	Hand action	PC board thickness (in.)	Part number
71 series	Left Hand	.063	71-2-L
	Right hand	.063	71-2-R
	Left Hand	.094	71-3-L
	Right hand	.094	71-3-R

About Pentair Technical Products

Pentair Technical Products, a Pentair global business unit, is the leading provider of worldwide product and service solutions for enclosing, protecting and cooling electrical and electronic systems. Its industry-leading brands—Hoffman®, Schroff® and McLean® Cooling Technology—provide a broad variety of standard, modified and engineered solutions to the commercial, communications, energy, general electronics, industrial, infrastructure, medical and security and defense markets.
