

Hub-Module Front Panel LEDs

One Row by 4 LEDs

e.g. Mentor 1271.1004

The PCB drill holes are 2.30 mm in diameter and separated by 5.08 mm from one light pipe to the next.

The light pipe going through the front panel is 3.00 mm in diameter and its center is 5.08 mm above side 1 of the PCB.

SMD Pads are 1.65 mm X 2.40 mm Y and centered 1.425 mm either side of the 7.65 mm line. There is 1.20 mm between pads.

LED case size P-LCC3 aka 2-PLCC LxT673 LxT676

Osram recommends 1.5 mm x 2.6 mm pads separated by 1.5 mm
