

Hub FPGA Heat Sink

Fill Block Mount Holes

Draw: M22
Rev.
23 Feb 2017

X =
about 101 mm
Y = 110 mm

Machine 6 Fill Block mounting holes into each heatsink.
Each of these holes consists of:

In a 14.0 mm diameter circle machine away the heat sink fins and just touch the base plate to level it.

Drill a fairly tight hole through the base plate for a 8-32 machine screw.

X,Y locations of these 6 Fill Block mounting holes in mm:

32.1, 82.0	50.5, 82.0	68.9, 82.0
32.1, 28.0	50.5, 28.0	68.9, 28.0
