--	---

*THE MAJOR LEAD-TIME ITEM WILL BE THE MANUFACTURING OF THE PCB. OUR BOARD HOUSE WHOM SUCCESSFULLY MANUFACTURED THE CMX CARD FOR MSU QUOTED A FOUR WEEK LEAD-TIME TO MANUFACTURE. DEBRON HAS INCLUDED FOUR ADDITIONAL WEEKS TO THIS TIME FRAME AS GERBERS WILL NEED TO BE SUPPLIED BY MSU FOR DEBRON AND OUR BOARDHOUSE TO REVIEW. ALSO THERE WILL HAVE TO BE ONE OF MORE THREE WAY CONFERENCE CALLS BETWEEN MSU/DEBRON/BOARDHOUSE TO MAKE ENSURE THIS IS SUCCESSFULLY PRODUCED TO MSU SPECIFICATIONS.*

*OTHER LEAD-TIME CONCERN IS XILINX MECHANICAL SAMPLE WHICH CAN ONLY BE PURCHASED THROUGH AVENT DOES NOT HAVE A LEAD-TIME THEY CAN PRODUCE UNTIL AN ORDER IS PLACED. DEBRON'S ASSUMPTION IS WE WILL HAVE SAMPLE DURING THE EIGHT WEEK TIME PERIOD WE ARE WAITING FOR THE PCB SO WE CAN TRANSITION DIRECTLY INTO THERMAL PROFILING.*

*ALL OTHER LEAD-TIMES CONCERNS ARE MATERIAL DEPENDANT AS MSU IS SUPPLYING.*
