

## List of Tables

1	Time line of fullerenes . . . . .	132
2	Time line of nanotubes . . . . .	133
3	Time line of graphene . . . . .	136
4	History of nanotubes in pictures . . . . .	138
5	List of common acronyms . . . . .	140
6	Common quantities and units . . . . .	141
7	Useful conversion factors . . . . .	141
8	Structural aspects of nanocarbons . . . . .	142
9	Structural properties of nanohorns . . . . .	142
10	Structural parameters of cubic diamond . . . . .	143
11	Structural parameters of graphene . . . . .	144
12	Structural parameters of hexagonal graphite . . . . .	145
13	Structure of fullerenes and nanotubes . . . . .	146
14	Useful textbooks on carbon nanostructures . . . . .	147
